

Executive Director Update

November 15, 2020

As you probably know, the Livingston Leadership Legacy Fund was established to provide seed money to support the creation of an Executive Director staff position for the Association of Cedarbrook Camps. The reason for the name of this fund is that this position was part of the vision that our founder, Sharon Livingston, had for the ACC.

The ACC Board of Trustees is excited to announce that we will begin the search for our first Executive Director in 2021. This person will be responsible for leading the ACC forward, providing our camps with resources and information to assure that they are sustainable into the future. They shall work diligently to raise funds to help offset the financial provisions needed to fulfill this ministry. This individual will also be tasked with membership development that will include identifying additional services and value for all member camps and for increasing the membership of the ACC. They will also supply the ACC with a mailing list of people who might be interested in contributing on a regular basis towards the ministry of ACC, and be in frequent, ongoing communication with these people.

Please share this information with anyone that is involved with your camp who might be a candidate for this position so that they can begin to pray.

Brent Hultman
President
